PROFESSIONAL SUMMARY

Computer Science student with experience in React.js, Node.js, and Python through internships and personal projects. I enjoy building web apps and working with AI tools. Looking to grow as a developer in a practical work environment.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js
- Backend: TypeScript, Node.js, Express.js, REST API Development
- Databases: MySQL, SQL, MongoDB
- Tools & Platforms: Git, GitHub, VS Code, Netlify, Vercel, Arduino
- Other: OOP Concepts, Embedded C, Python (Machine Learning basics)

INTERNSHIP EXPERIENCE

IoT Intern | Techvolt Software Pvt. Ltd., Coimbatore Jun 2025 – Jul 2025

- Worked on Arduino-based projects and connected sensors like temperature, motion, and humidity.
- Wrote C programs to collect sensor data and display readings in real time.

Front-End Development Intern | Cognitive I IT Solutions, Salem May 2024 – Jun 2024

- Built web pages using React.js and made sure they were responsive and easy to use on all screen sizes.

Python for Machine Learning Intern | Accent Techno Soft, Coimbatore Jan 2024

- Learned Python and built simple machine learning models, also worked on cleaning and preparing datasets.

PROJECTS

Flight Booking and Reservation System

MERN Stack | Tailwind CSS | Payment Gateway | Airline API

- Developed a flight booking website where users can search flights, pick seats, and pay online.
- Connected Airline APIs to show live flight status and added email and SMS alerts for booking confirmations.

AI Powered Resume Builder

Python | Flask | GPT-4 API | FPDF

- Built a web app where users chat with a bot, fill in their details, and get a resume downloaded as a PDF.
- Added a feature to check ATS score of uploaded resumes and suggest matching job roles based on the content.

Smart Expense Tracker

React.js | Tailwind CSS

- Made a React app to log daily expenses, filter them by category, and view spending as charts.
- Used LocalStorage to save data without a backend and React hooks to manage the app state.

Notes Application

React.js | Tailwind CSS

- Built a notes app where you can add, edit, and delete notes, works well on mobile screens too.
- Notes stay saved using LocalStorage even after closing the browser, managed with React hooks.

CERTIFICATIONS & ACHIEVEMENTS

- IIT-M Pravartak Certified Full Stack Development with AI Tools (3 Months) – GUVI, May 2026
- Runner-Up, Payoda AppViewX Hackathon – Recognized among national-level participants.
- Workshop on AI in Healthcare – IIIT Bangalore

EDUCATION

B.E. Computer Science & Engineering 2022 – 2026 (Expected)

Excel Engineering College (Affiliated to Anna University), Namakkal | CGPA: 8.6 / 10

Senior Secondary – Tamil Nadu State Board 2020 – 2022

Government Higher Secondary School, Salem | Percentage: 80%

LANGUAGES

Tamil (Native) English (Professional Proficiency) Kannada (Working Knowledge)
